

ODYSSEY
ENERGY LIMITED

ASX ANNOUNCEMENT

29 JULY 2016

JUNE 2016 QUARTERLY REPORT

The Directors of Odyssey Energy Limited (“**Odyssey**” or “**Company**”) are pleased to present the June 2016 quarterly report.

Highlights during, and subsequent to, the quarter were as follows:

- The Company continued in its efforts to identify and acquire suitable new business opportunities in the oil and gas, resources and other sectors including technology, both domestically and overseas. In this regard, the Company will make announcements to the market as appropriate should an acquisition occur;
- As previously advised, the Company has been searching for additional oil or gas leases and has now secured a small acreage position (710 acres) with gas rights in McLean County, Kentucky, USA;
- The McClean County Project is adjacent to historical gas wells, and the Company will assess the available historical data in order to determine how to best proceed with the project;
- The Company continued to monitor and evaluate the best method to extract value from the McClain County Project noting that major US Operators are continuing to develop the Woodford Shale gas and gas-liquids plays in the Anadarko Basin in central Oklahoma; and
- As at 30 June 2016, the Company had approximately \$3.95 million in cash reserves placing the Company in a strong position to conduct its current activities and to pursue new business development opportunities.

Operations

McLean County Project – Odyssey 100% WI

As previously advised, the Company has been searching for additional oil or gas leases and has now secured a small acreage position following the acquisition of a 100% working interest in a project area in McLean County, Kentucky, USA.

The project comprising three gas leases consisting of four (4) tracts of property totalling 710 acres and are located adjacent to the Rough Creek Fault System, which is a large regional fault system. Several historical gas wells are contained within or adjacent to the project.

The Company will consider available historical data to determine future activity for this project area, which may include expansion of the lease area footprint and/or exploration activities.

As previously advised, the system for obtaining title to gas leases in the USA is complex given that numerous parties may hold the undivided mineral rights to a particular tract of land. This can be a lengthy and expensive process. It is therefore customary that such title opinions are not sought until the Company proposes to conduct a drilling operation and/or expend significant amounts of money on a particular lease. As a result, limited title work has been conducted to date, and further title work will need to be completed before any substantial exploration expenditure is incurred.

McClain County Project – Odyssey 50% WI:

Odyssey holds a 50% working interest in a project area in the Anadarko Basin in Oklahoma comprising 1,626 gross acres, and targeting gas and oil in the Woodford Shale at between 6,000 and 8,000 feet.

Corporate

Business Development

During the quarter, the Company continued to assess a number of new business opportunities targeting oil and gas, resource and other sectors including technology, both domestically and overseas.

However no agreements have been reached or licences granted and the Directors are not able to assess the likelihood or timing of a successful acquisition or grant of any opportunities.

The previously issued 1,000,000 performance rights expired on 30 June 2016.

Exploration Tenement Information

As at 30 June 2016, the Company has an interest in the following projects:

Project	Net Acreage Participation	Odyssey Working Interest
McLean County Project ⁽¹⁾	710	100%
McClain County Project	1,626	50.0%

Note:

(1) The McLean County Project comprises 3 gas leases that were completed after the end of the Quarter but are effective 27 June 2016.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements and petroleum tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement or petroleum tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
